
Pole-mounted Bike Hoop B130.03

GENERAL

DESIGN STATEMENT

Pole mounted bicycle hoops should be used in very limited spaces where there is substantial street furniture and pole clutter. The hoop is mounted to existing street sign poles and posts, to improve condition where cyclists are frequently chaining their bikes to sign posts.

APPLICABLE LOCATION

To be applied to all streets in Moreland.

COUNCIL STANDARD DRAWING

SD 403 Bicycle parking rail

CROSS REFERENCE DOCUMENT

- AS2890.3 Bicycle Parking facilities
- Bicycle Facilities - Planning and design guidelines (State Bicycle Committee, Victoria Transport)

STANDARD SPECIFICATION

Finish: Steel to be fabricated from 316 Grade stainless steel (304 stainless steel in Council Standard) and polished to a bright satin finish.

Installation: Mounted onto existing street sign poles and posts.

SUPPLIER

Embleton Coburg www.embelton.com or similar.
